Now you don't need to worry about per student pricing like others. 100 or 10,000 students make no difference.

Do you want to maintain your finance in separate account? You can do it free of cost with SchoolOnApp only.

We don't close your account even if you don't want to continue, so you don't need to worry about previous year's data.

We are a non-profit organisation, so we won't charge you like others when you may feel locked after few years of software use.

To my understanding the team from Schoolonapp has done a wonderful job keeping the application absolutely free. When we hear FREE the first thing which comes to mind is; is it? Yes it is. I am eager to see this team keeping up the spirit high and keep improving on this App, as this is for sure going to help the entire community.
